Selection Committee  
Mentored Student Research and Creative Activity Exhibit  
College of Creative Arts & Media  
West Virginia University  
Morgantown, WV. 26506

Dear Members of the Committee,

I am thrilled to write this statement of mentorship for **Samuel Felinton's** submission for the Mentored Student Research and Creative Activity Exhibit.

The mentorship I have given to Samuel Felinton on his digital media project has been through the work being done in THET 225 and THET 226 Introduction to Stage Design I & II. In these courses, we have worked on storytelling through images and drawing. How to utilize the elements of design and principles of composition to achieve the greatest impact.

Sam has absorbed those lessons and applied them to his animated movie creating the world's second longest movie, *The Death of Film*. The film is the longest animated film, longest non-documentary film, and the second longest film in history. It is a testament to his initiative and creativity to conceive and develop such a project.

Sincerely,

Tamara L. Honesty  
Associate Professor of Scene Design
